B. Wall Covering Adhesive:
   1. Category Four Approved Products. See Section 01 6000 for definitions of Categories.
      a. CIC 257 Adhesive by Fibreworks.
      b. Sisal Adhesive No. 1-422 by Design Materials.
      c. #90 by Chapco for Ronarco.

C. Seam Cement:
   1. Type Two Acceptable Products:
      a. Roberts 4015 Seam Cement by Roberts Consolidated Industries.
      b. Equal as recommended by Wall Covering Manufacturer with approval of Architect before installation. See Section 01 6000.

2.2 MANUFACTURERS

A. Contact Information:

PART 3 - EXECUTION

3.1 PREPARATION

A. Prime or size surfaces other than gypsum board with material recommended by Wall Covering Manufacturer.

3.2 INSTALLATION

A. Apply wall covering in accordance with Manufacturer's instructions, available on video tape from Owner through Architect.

B. Using specified adhesive, glue continuously to surface to be covered with wall covering. Apply adhesive in accordance with Manufacturer's recommendations.

C. Run 'ribs' in weaving horizontally (panel style) when installing wall covering full height. If sisal installed only as wainscotting, 'ribs' may be installed vertically. Install wall covering so it extends to within 1/8 inch of floor slab.
