PART 1 - GENERAL

1.1 SUMMARY

A. Products Installed But Not Supplied Under This Section:

B. Related Sections
   1. Section 01 6000: Owner will furnish baby-changing stations. PART 2 PRODUCTS of this Section establishes quality of materials for information of Contractor, Architect, and Owner's representatives.
   2. Section 06 1100: Blocking.

1.2 SUBMITTALS

A. Product Data: Manufacturer's literature or cut sheets.

B. Quality Assurance / Control: Manufacturer's printed installation instructions.

1.3 WARRANTY

A. Manufacturer's standard 5-year warranty.

B. $10,000,000 minimum product liability insurance policy.

PART 2 - PRODUCTS

2.1 MANUFACTURED UNITS

A. Baby Changing Station:
   1. Molded high impact polyethylene with integral straps for securing baby.
   2. Surface mounted.
   3. Category Two Approved Manufacturer. See Section 01 6000 for definitions of Categories.

PART 3 - EXECUTION

3.1 EXAMINATION

A. Verify that solid blocking has been installed where changing station is to be installed. Do not install unit by any other means other than screws or lag bolts into solid blocking.
3.2 INSTALLATION

A. Install items in accordance with Manufacturer's submitted, written instructions for screws or lag bolts into solid substrate. Install using mounting devices proper for base structure.
